ALLIED INDUSTRY

Banking, Financial & Insurance Providers; Security Services & Systems; Importers & Exporters; Specialist Service Providers & Research Bodies; Industry Associations & Trade Associations; Industry Publications; Training & Skills Development

Professional Conference Programme:

An additional incentive to participate is the extensive knowledge programme co-located alongside the exhibition. The programme is being developed in consultation with authorities and industry role players to ensure content matches market needs. The key characteristic of the conference is to provide relevant information for industry sub-sectors with an emphasis on practical implementation and practicality within the sub-Saharan context.

Visitor Profile:

Trans Africa attracts visitors from South Africa and Sub-Saharan Africa who are decision-makers within the transport and transport infrastructure value chain. Visitors include ministers of transport; departmental directors general and policy makers; key decision makers from public and private transport companies and operators; manufacturers and suppliers of transport technology; construction companies; chief executive officers; chief purchasing officers; planning officers; senior managers; maintenance division heads; engineers; safety managers; consultants; trade associations; industry professionals; industry association members and media.
